ket and have enough left for home consumption. Mr. Pate's melons are all good, as a rule and he has no trouble in selling 'em right off the wagon. He says his vines are loaded with finer one still, which he will haul away as fast as he can. The older people as well as the kiddies, look forward to the coming of the "Pate melon wagon."

The New Edison

"The Phonograph With A Soul"

Because the Edison Co., features Grand Opera, Re-Creations so constantly some people have the idea that it overlooks the more popular music. Quite otherwise. It is sorry for the man who can't enjoy a rollicking ragtime ditty. It believes in democracy in music. And it supports its belief by producing vast quantities of the latest hits.

In Edison Grand Opera Re-Creations you receive all that the ear can give you of the art of the world's great opera stars. Three million dollars was spent in research work to perfect an instrument which would be capable of achieving this effect. But it was three million dollars well spent. For the result is The New Edison "the phonograph with a soul,".the only phonograph which can meet the tone test, the test of direct comparison with the living artist's voice or instrument.

It is our honest belief that not nothing in the world yields larger dividends in pleasure for the sum invested than the New Edison. To the entire family it brings all that the ear can give of the art of the world's greatest singers. And remember, our popular Re-Creations too, are made with the same exacting insistence upon perfection which marks our Grand Opera arias.

See the exhibit of Edison period cabints now on display at our store.
